

RESEARCH

Human Organs and Tissue

Virtually every human organ and tissue is needed for medical research. IIAM, a non-profit organization, is a world-leading provider of non-transplantable, healthy and diseased, human organs and tissues for medical research, education and development.

Fast Facts

- Supporting medical research since 1986
- IIAM screens over 30,000 organ referrals/year
- Recovered with minimal ischemia
- Authorized for use in medical research
- Transported directly from recovery site to the researcher's lab
- Comprehensive donor testing and medical history

Contact us today to learn more about how IIAM can support your research.
